

Shivapuri Hiking

Trip Overview

Shivapuri National Park is the ninth national park of Nepal which is named after the Shivapuri Peak residing in an altitude of 2,732 meters. It was established in 2002. Shivapuri National Park covers an area of 159 km/square.

Shivapuri Hiking is one of the popular day hikes that will take you up to Shivapuri mountains along with the stunning view of the overall Kathmandu Valley. This is a moderately challenging hike which takes only about 5 to 6 hours.

The starting point of the hike is Shivapuri National Park which is located about 20 kilometers from Kathmandu. The entrance fee is NPR 200 for adults and NPR 100 for children. Shivapuri Hiking offers exquisite scenery of the surrounding mountains along with the Kathmandu valley. This is a perfect hike for you to escape the rush of the city and enjoy the tranquillity of nature.
